B C-Spout Widespread  
A1408XCPN

C Hex Spout Widespread  
A1808XCPN

Recognizing that a beautifully designed faucet can be the jewelry of the bath, ROHL introduces its Country Bath Crystal Collection. The authentic rustic design, created in Italy, is complemented exquisitely by Austria's most fashionable and sought-after crystal, Swarovski®. The result is a true work of art and a faucet that performs flawlessly — just what you'd expect from ROHL.

The attention to detail in this bath collection is striking as evidenced by the style of the metal craftsmanship to the multi-faceted crystal. Choose from Column Spout Widespread, Wall Mount Bridge, C-Spout Widespread and Hex Spout Widespread faucet designs. Complete crystal lever pressure balance and thermostatic shower kits are also available featuring single and multi function showerheads. Accessories include soap dishes, robe hooks, towel bars, toilet paper holders and glass shelves, along with crystal pull knobs that accent the bath collection beautifully.
