Palladian 3-Hole Wide Spread
Lavatory Faucet
A1908LM - Metal Levers

Andrea Palladio, a 16th century Italian architect and creator of the Palladian window and proponent of honest classical architecture, was the inspiration behind the ROHL Palladian series. Blending the best of classic proportion with the flourish of great Italian fashion, this look is the answer to the renewed love of European colonial and Old World design.

Available in a full range of finishes, the Palladian faucet works with rustic carved stone looks, artisan-created hand painted and hammered metals as well as traditional ceramic, glass sinks and vessel bowls. All are great options for the colonial revival style.
