# ROHL VINCENT COLLECTION

Located outside the Piedmonte region in Italy lays the mountain resort of Saint-Vincent, for which ROHL's Vincent series has been named. Transitional in style, walking the line between traditional and contemporary, the emphasis is on design, engineering and quality. Utilizing advanced design and manufacturing techniques, the Italian craftsmen have paid extreme attention to detail, using elegant peaks and natural lines to achieve this Transitional look. With unmistakable old world grace and charm, these captivating fixtures are confident and comfortable in any setting.
