## **TRADITIONAL FAUCET BEAUTIFIES THE AMERICAN KITCHEN**

### *A3608: An Updated Classic from the ROHL Country Kitchen Collection*

European artistry underlies an American classic in the traditionally styled A3608 faucet from the ROHL Country Kitchen Collection. Simply elegant, the A3608 communicates a unique sense of style and functionality that presents the ultimate standard of luxury.

From an aesthetic standpoint, the A3608 makes a bold statement with its tasteful column spout, easy-to-operate single lever handle and extremely generous proportions. But, the real beauty and value of the faucet can be found beneath the exterior surface. From design engineered ceramic disc cartridges to a solid brass construction, each faucet is built to provide long-term, worry-free performance.

The A3608 offers an optional handspray that is one of the finest available. Key features include a technologically superior diverter designed to reduce sediment buildup, an easy-to-clean removable spray face, a temperature-insulated solid-brass handspray and a 5' hose.

Two handle styles are available: a traditional and pristine white porcelain handle or a newly enhanced, exquisitely detailed solid metal handle. Five finishes range from Polished Chrome and Polished Nickel to Satin Nickel, Tuscan Brass and Inca Brass. Presenting a coordinating suite of products, ROHL also offers this faucet in a 6-1/2" bar spout or an oversized

11" spout. Soap / lotion dispensers, filtered water dispensers, pot fillers and other accoutrements may be ordered as well.

As with all of ROHL's faucets, the A3608 is engineered specifically to comply with American installation standards and plumbing codes. Each includes 1/2" NPT supplies. It is backed by a limited lifetime warranty.

ROHL is a leader in providing distinctive products for the kitchen and bath – creating the experience of authentic luxury for America's finest homes, resorts and hotels.
