CHIC SOPHISTICATION FLOWS FROM ROHL MODERN COLLECTION, ARCHITECTURAL SERIES

Clean, crisp architectural lines converge in a sophisticated set of water appliances for the bath: ROHL's exclusive Modern Collection, Architectural Series. Embodying a chic style, the line captures an international flair with its Italian design, yet it is artfully crafted for the American home, hotel, resort or spa.

The sleek simplicity of its tall curved spouts is matched by the meticulous detailing of generously-proportioned cross handles that extend throughout the series. Deck-mount lavatory faucet selections range from a single-hole with two-valve design (BA51) to a two-hole bridge style mixer (BA72) design or a three-hole widespread (BA106). A three-hole, wall-mounted lavatory faucet with an 8" reach (BA351) provides additional design opportunities. Complementary tub fillers, thermostatic shower valves, diverters, volume controls, showerheads, hand showers and accessories help to create a coordinated bath environment.

All are available in Polished Chrome or Satin Nickel finishes. Each component in the Architectural Series is constructed of solid brass and engineered to stand the test of time. The line is backed by a limited lifetime warranty.

ROHL is a leader in providing distinctive products for the kitchen and bath – creating the experience of authentic luxury for America's finest homes, resorts and hotels. The firm offers
