**ROHL'S MICHAEL BERMAN SHOWERHEADS
OFFER SOPHISTICATED LUXURY**

Introducing 6-Jet, 8-Jet Adjustable Showerheads

Michael Berman has expanded his exclusive ROHL offerings to include a 6-Jet adjustable showerhead (model WI0120) and an 8-Jet adjustable showerhead (model WI0121). Blending traditional lines with modern simplicity, Berman creates a look of unparalleled style, comfort and understated elegance.

The 6-Jet and 8-Jet showerheads from the Michael Berman collection feature matching lever handles and improved soft outlets made of elastomer that help prevent calcium build-up. Both Berman showerheads are constructed of solid brass, a generous 2.5 GPM flow, and include 1/2" female swivel connections. The 6-Jet showerhead is ideal for Pressure Balance Systems in guest bathrooms. The 8-Jet showerhead is perfect for Thermostatic Shower Systems and master baths. These sophisticated Berman showerheads are part of a suite of coordinated bath products featuring the streamlined Zephyr C-spout, inspired by the Era of Trans-Atlantic travel and the modern Gotham column spout, reminiscent of major metropolitan skylines. All of ROHL's faucetry and accessories, including the Michael Berman collection, are available in Polished Chrome, Polished Nickel, Satin Nickel, Tuscan Brass and Inca Brass.

One of America's leading interior and home furnishing designers, Michael Berman's style emphasizes historic and traditional details. Berman has established a national reputation for
