

# The ROHL Collection of Luxury Soap Dispensers with the **One Touch™** System

## Swiss Precision Beautifully encased in Luxury

## From the people who made luxury an exact science.

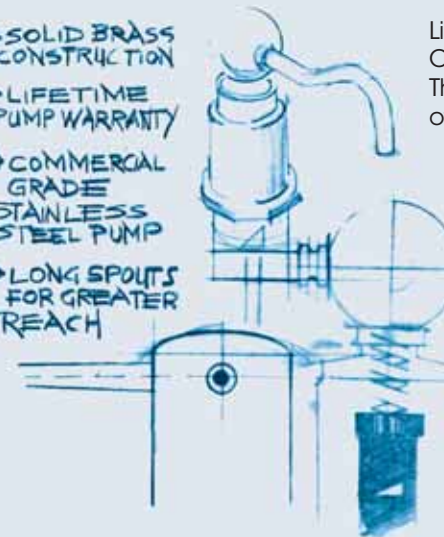

From the land of boundless grandeur, consummate cleanliness and reliability, the Swiss gave the world the precision and beauty of the finest timepieces. So it follows, that in a spot nestled near the foot of the Juras Mountain range, craftspeople would blend precision,

performance and elegance to create the perfect vessel and pump for liquids. Engineered so precisely, the clog free technology delivers the perfect amount of liquid every time, with just one gentle touch. Isn't precision a beautiful thing?

## **One Touch™** technology that never clogs.

- ▶ SOLID BRASS CONSTRUCTION
- ▶ LIFETIME PUMP WARRANTY
- ▶ COMMERCIAL GRADE STAINLESS STEEL PUMP
- ▶ LONG SPOUTS FOR GREATER REACH

Like fine Swiss timepieces, our six Luxury Soap Dispensers with the One Touch™ System exude unrivaled design and sophistication. The elegance of their profiles echoes the precision craftsmanship of their inner workings.

- Specially designed for high-capacity dispensing, without ever clogging.
- Large (12-ounce) bottle capacity.
- Resistance to the long-term effects of aggressive liquid soaps.
- Six styles – from classic to contemporary – available in six finishes.
- Designs to coordinate with any ROHL Kitchen and Bath Collection.
- Limited Lifetime warranty.
